

# Juniper recognized as a Leader for the fourth time in a row in the 2024 Gartner® Magic Quadrant™ for Enterprise Wired and Wireless LAN Infrastructure.

## A Leader for the fourth time in a row, placed Furthest in Vision, Highest in Execution for 2024.

We believe this recognition comes from Juniper's proven strengths in simplifying operations and delivering an experience-first network. Juniper Mist is a leader in wired and wireless access with a fully integrated AI-Native portfolio of campus and branch solutions. Built on a common AI engine, Juniper's full stack campus and branch solution is the quickest to deploy and easiest to operate, resulting in the lowest TCO and OPEX and the best end-to-end assured user experiences.

### Microservices cloud architecture

- No scheduled downtime
- 100% API-driven and full stack
- Enables agility and scale, delivering the fastest time to deploy

### Industry-leading AIOps

- AI-driven assistant (Marvis) simplifies IT tasks through industry's only conversational interface
- Minimize trouble tickets with self-driving actions and automated workflows across full stack, and real time SLE's
- Reduced MTTR with dynamic packet capture

### Assured user experiences across full stack

- Service levels bring insight and great experience
- Patented BLE with virtual beacons
- Real-time anomaly detection and risk mitigation

### Try our Campus in a Box risk free.
